

Long Engine options

4.6 litre brand new	£2950.00
4.0 litre brand new	£2695.00

Additional Upgrades - for economy and fast road use

Stage 1	add	£ 600.00
Stage 3	add	£1100.00

Ignition and Carburation

Weber Carb. kit complete with Offenhauser manifold and all required fittings etc	£ 545.00
Mallory points distributor inc coil & ballast	£ 245.00
New drive gear	£ 45.00
Magnecor plug wires	£ 75.00
A&R Power amp	£ 125.00

I have not included fuel injection in this quote as some considerable discussion would be required before we could do so, I would add though, unless you are going to buy fuel injection 'New' or spend considerable sums on upgrading a used system, the above Weber 500 carburettor option is not only far cheaper, and fitted in minutes rather than days, it will also offer far more out the box reliability economy and performance than stock injection would.

Ancillaries

The following is a list of ancillaries that may also be require, prices quoted can vary, however the prices we are quoting assume either reconditioned or new.

As you can see, some considerable savings could be made if you where able to re-use some or all ancillaries from your existing engine or to source them from a local breaker.

Front timing cover	from	£ 175.00
Water pump	from	£ 75.00
Water pump pulley		£ 30.00
